

GRADING CRITERIA

GREATLY
EXCEEDS
14

EXCEEDS
13-10

MEETS
9-4

FAILS TO
MEET
3-0

CRITERIA 1 - Preparation

Is design prompt completed and turned in and are proper number of sketches evident in sketchbook?

CRITERIA 2 - Concept

Does the animal rationale work - does the student know whether selected the animal and how it relates to them and reflects their personality?

CRITERIA 3 - Design/Composition

Is image well composed? Has student considered the Rule of Thirds? Does it have good use of negative space, is it well balanced? Has the image background been taken into account?

CRITERIA 4 - Craftsmanship 2

Is the image the minimum required size (5X7) and does it meet the minimum required resolution standards (at least 150 DPI)? Has the student shown that they know how to do an effective Google image search and understand resolution?

CRITERIA 5 - Technique 1

Did student have good grasp of imagery - getting animal image and taking photo of self? Is image proper size and image quality?

CRITERIA 6 - Technique 2

Are edges soft and well blended? Has color been corrected? Were face and animal cleanly morphed?

CRITERIA 7 - Technique 3

Was there clear demonstration of use/mastery of Photoshop tools demonstrated in class? Selection tools, blending tools, eraser tools, layers, masks and extraction filters.

CRITERIA 8 - Craftsmanship 2

Neat, clean & complete? Properly labeled and in drop box? Is there evidence student understands PSD and JPEG files types?

FINAL PROJECT GRADE
